PH value	10.8
Storage life	12 months

Commercial data

Customs tariff number	34029090
Country of origin	DE
eCl@ss 5.1.4	30021609
eCl@ss 9.0	30021609
UNSPSC_Code_v190501	47131825
UNSPSC_CodeDesc_v190501	Contact surface cleaners

Information

Cleaner M is ready to use, quick-drying, non-flammable and label-free. The cleaner is easy and safe to use. It can be used, for example, to clean and degrease machine parts and tools.

The special formula of speciality surfactants and alcohols contains no silicone-based defoamers, is non-greasy and therefore makes a safe contribution to the reliable cleaning of components in production.

Application

- spray cleaner M generously onto the surface to be cleaned
- allow to take effect
- wipe off with a clean, lint-free cloth or fleece
- ready

For coarse soiling, a longer exposure time is required. Repeat the cleaning process if necessary.

*The material compatibility should be checked beforehand in a concealed area for safety reasons.

Storage

Container is pressurised. Protect from sunlight and temperatures above +50°C.

Safety and health

When processing RIEGLER products, the physical, safety, toxicological and ecological data and regulations in our EG safety data sheets (www.RIEGLER.de) must be observed.
