

5/2-way valve »BASIC«

electropneumatic

EASY

Art. No. 146711

Type No. 7090021200

Exemplary illustration

The valves in the »BASIC« series are a numerically-reduced selection of some types of the most commonly used solenoid valves with a particularly good price/performance ratio. Some production processes have been simplified, without affecting product quality and performance. The body is made of anodized aluminium (without painting) and controls are in dark grey technopolymer.

»BASIC« valves can be assembled with accessories of other families of valves, in particular with 22 mm coils, a 8 mm hole and related connectors, modular bases and the multi-position connectors of the series 70 valves.

VALVES SERIES BASIC

The valves in the BASIC series are a numerically-reduced selection of some types of the most commonly used solenoid valves. They come in sizes 1/8" and 1/4" and in the 3/2 monostable, 5/2 monostable and 5/2 bistable versions. Some production processes have been simplified, without affecting product quality and performance. The body is made of anodized aluminium (without painting) and controls are in dark grey technopolymer. BASIC valves can be assembled with accessories of other families of valves, in particular with 22 mm coils, a 8 mm hole and related connectors, modular bases and the multi-position connectors of the series 70 valves.
