

5/3-way valve

manually operated, series 70 low temperature

Art. No. 149914 Type No. 70L1001100

Exemplary illustration

The series 70 low temperature valves in manually operated version with hand lever complement our range of traditional way valves of series 70. They represent a selection of the most commonly used manually operated way valves, which are manufactured with components for special low temperature applications. These valves are also suitable for use with vacuum.

Technical data

Function	5/3
Operation	mid-position pressurised, spring return
Connection	G 1/8 IT
DN	5
Flow rate measurement 1	flow rate at 6 bar and Δp 0.5 bar
Flow rate 1	400 NI/min
Flow rate measurement 2	flow rate at 6 bar and ∆p 1 bar
Flow rate 2	550 NI/min
Medium	filtered, dry and unlubricated compressed air
Required purity class in accordance w. ISO 8573-1	4.2.3
Operating pressure	-0.99 - 10 bar
Temperature range	-40 to 60 °C
Valve body	aluminium
Piston	nickel-plated aluminium
Sealant	NBR
Spring	special steel

VALVES SERIES 70

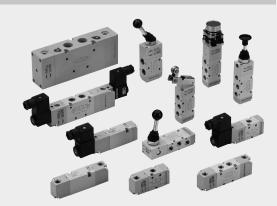

The Series 70 forms part of Metal Work's full range of traditional valves.

They are available in sizes 1/8'', 1/4'', 3/8'' and 1/2'', versions 3/2, 5/2, 5/3 and double 3/2, with mechanical, manual, pneumatic and

They can be installed in line, onto a wall, on the cylinder (using a special bracket) or in series (on a multiple or modular base) to suit all possible applications.

A range of valves (Series 70 LT) designed using components for specific low-temperature applications is now available for the most commonly used types and sizes.

These highly reliable valves comply with the main applicable standards, including Atex, ISO 13489 and SIL, as stated in the documents and certificates available online.

COMPONENTS SERIES 70

- ① VALVE BODY: Aluminium
- ② CONTROL/END CAP: plastic

- (2) CONTROL/END CAP: plastic
 (3) SPOOL: chemically nickel-plated aluminium
 (4) DISTANCE PLATES: plastic
 (5) GASKETS: NBR
 (6) PISTONS: Hostaform®
 (7) PISTON GASKET: NBR
 (8) FILTER: plastic
 (9) SPRINGS: special steel
 (10) OPERATOR: Brass pipe Stainless steel core

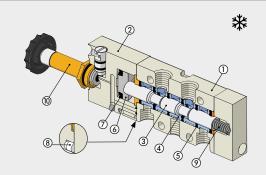

RIEGLER

COMPONENTS SERIES 70 LT (LOW TEMPERATURE)

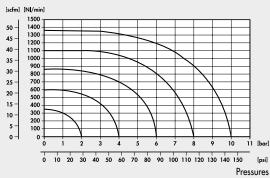

- ① ALVE BODY: aluminium
- CONTROL: aluminium
 SPOOL: chemically nickel-plated aluminium
 DISANTE LANDS: plastic
- ⑤ GASKETS: HNBR
- PISTONS: aluminium
- 7 PISTON GASKET: HNBR
- FILTER: plastic
- SPRINGS: special steel
- (ii) OPERATOR: brass pipe Stainless steel core (version specific for low-temperature applications)
